Aqua Aquaria India 2017 offers an ideal platform for stakeholders of aquaculture and ornamental fish to meet, deliberate on various aspects and to have an update on the latest developments in the field. The forthcoming edition of Aqua Aquaria India, the fourth one in its present format, will showcase the recent advances in aquaculture and ornamental fish breeding/ rearing technology for encouraging diversification. World renowned experts will be invited to deliver technical sessions on topics of current interest.

Most anticipated show in aquaculture...

The Marine Products Export Development Authority (MPEDA) is organising Aqua Aquaria India, one of the largest aquaculture cum aquariculture shows in Asia. As a biennial event concentrating on aquaculture and ornamental fish culture sectors, this mega event involves an exposition on recent developments in aquaculture and ornamental fish sectors along with technical sessions focusing on themes relevant for the development of the sectors attracting large number of farmers, hatchery operators, feed manufacturers, input suppliers, manufacturers and suppliers of various aquaculture and aquarium implements, scientists and experts around the world.

Continuing saga of success...

The last edition of the event held at Vijayawada was an overwhelming success with 158 Exhibitors, 7700 delegates and thousands of visitors at the expo. The technical sessions handled by world renowned speakers on various aspects of Aquaculture and Ornamental fish attracted tremendous response from the delegates.
